

Corne layout reference

JonnyLeeHJ/zmk-config, main. Grey keys fall through to the layer below.

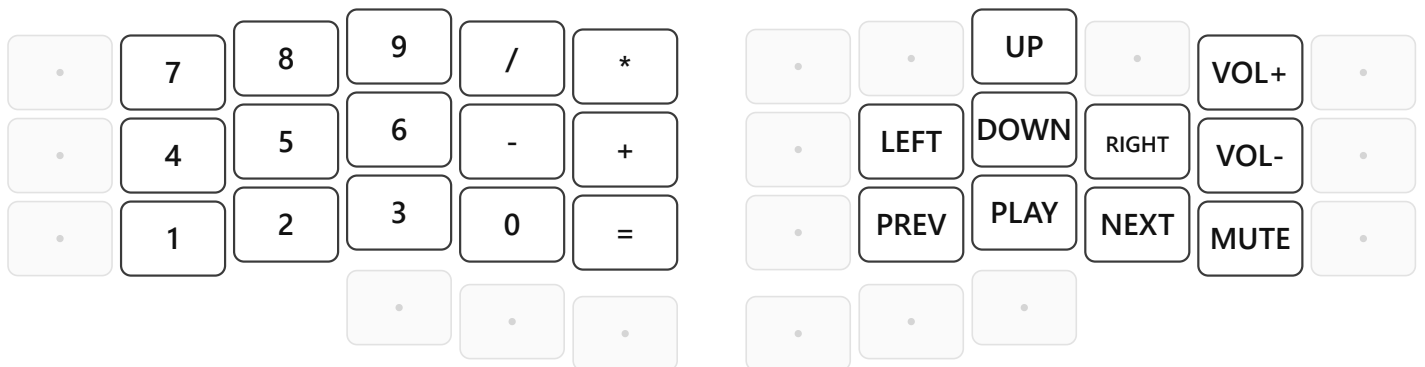

Base no key held

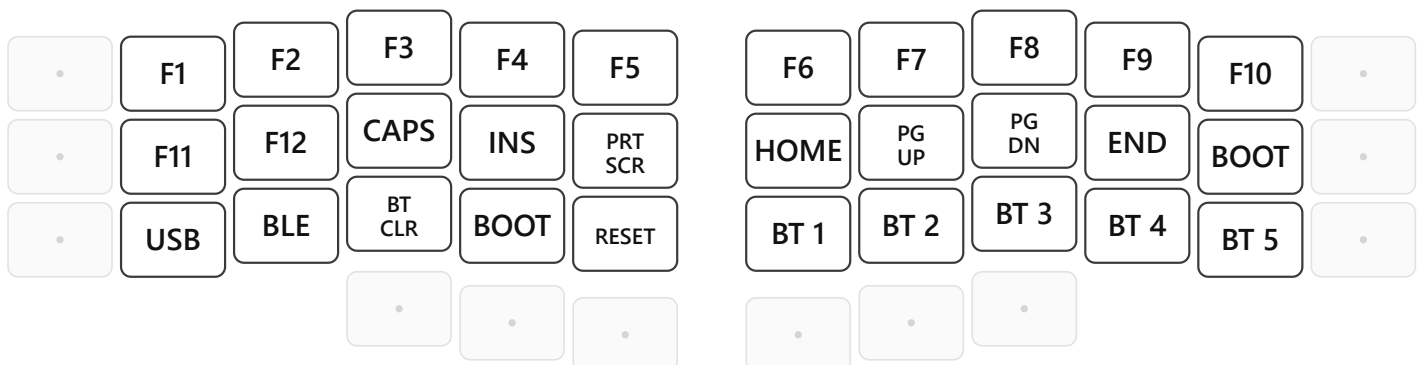

Lower hold left outer thumb

Raise hold bottom right outer key

Adjust hold Lower and Raise together

Tap Tab / hold for Ctrl. Tap Caps Word / hold for Alt (Option on Mac). Both holds: 200 ms. J and K: plain letters.
Only the Base layer is printed on the keycaps. Caps word capitalises until a space, and underscores do not break it.
